SUMMARY

B.Tech Computer Science and Engineering graduate (2021–2025) skilled in full-stack and backend development using Java, and Express.js. Proficient in object-oriented programming (OOP), version control (Git), and Agile development practices. A quick learner and problem solver, seeking an entry-level Software Developer or IT Trainee role to build scalable applications and deliver innovative solutions.

EDUCATION

SNM IMT Maliankara <i>Btech in Computer Science and Engineering</i>	Eranakulam, kerala 2021–2025
National HSS Irinjalakuda <i>DHSE, Computer Science</i>	Thrissur, Kerala 2020–2021
National HSS Irinjalakuda <i>SSLC</i>	Thrissur, Kerala 2018–2019

PROJECTS

AI Doctor <i>Python, Django, Javascript, SQLite, Machine Learning</i>	2024–2025
- Developed a full-stack web application with REST API integration for disease prediction from user symptoms. - Implemented a Random Forest Classifier and Natural Language Processing (NLP) techniques to predict diseases based on user input and facilitate chatbot interactions. - Integrated location-based services and video consultation booking with specialists. - Collaborated with a small team using Agile development practices to deliver a robust solution for real-time patient-doctor interaction.	
Personal Finance Tracker <i>Python, Streamlit, pandas, matplotlib</i>	2025
- Designed a web app for tracking income, expenses, and savings. - Implemented CSV-based data storage and visualized insights using Matplotlib. - Deployed using GitHub and version control best practices.	
Carbon Footprint Calculator <i>Python, Streamlit, Firebase, express, MongoDB</i>	Apr 2024–May 2024
- Built a RESTful API backend to compute daily CO₂ emissions. - Integrated Firebase Authentication for secure user access. - Encouraged sustainability by providing actionable suggestions.	

TECHNICAL SKILLS

Languages: Java, Python, C/C++, MySQL, JavaScript, HTML, CSS
Frameworks: React, Node.js, Streamlit, Express
Developer Tools: Git (Version Control), GitHub, VS Code, Android Studio
Libraries: pandas, NumPy, Matplotlib
Other: REST APIs, Agile Software Development, Machine Learning (Random Forest, NLP)

SOFT SKILLS

Adaptability, Problem-solving, Communication, Collaboration, Time Management

CERTIFICATIONS

Programming using Java - Wingspan (July 2025)
Software Engineering and Agile Software Development – Wingspan (June 2025)
Dart Programming – Wingspan (October 2024)
Dart Programming Training: Beginner Level – Wingspan (September 2024)
Linux for Beginners – Wingspan (September 2024)
